

## EAIT conference May 2022

Gerne leiten wir euch den call for papers der EAIT weiter, Kontakt für Fragen oder Vorschläge ist [Silvia Breuss Grøndahl](#)

### Call for Papers

*For our next conference, which we hope can arrange at Beversee, Germany, from Friday afternoon the 6<sup>th</sup> and Saturday the 7<sup>th</sup> May 2022, we **call for papers**.*

*The theme is "Co-creativity for a world at risk". If you or somebody in your organisation want to tribute with a workshop or lecture send us a short description.*

*It should maintain some information about the person and a summary or short description of the lesson/workshop and how much time you need (45min for lessons, 1 ½ or 3 hours for workshops). This is due to the program.*

*We also want to present interesting new master theses, also those which are not connected with the theme of the conference. These presentations should not take more than 20 min.*

*We cannot assure that all proposals will be accepted. The program as a whole and available time will be the criteria.*
